Urinal Installation

We provide only the highest-quality brands for our loyal customers. We offer premier industry leaders in urinal manufacturing such as [American Standard](#) and [Mansfield](#). They are built to last and feature recently updated designs for exceptional functionality. These brands even offer waterless urinals for people looking to conserve water and save on utility bills. Using a special sealant, these options save hundreds of thousands of gallons of water annually. Save money and protect the environment with these efficient options!

Urinal Replacement

When urinals need replacement, we provide professional plumbers with innovative ideas and years of experience to replace urinals that are either outdated, require an upgrade, or simply need remodeling. Focusing on performance and durability, our experienced [Utah plumbers](#) will ensure that minimal maintenance is required and that conservation of water is maximized. Because everyone has different needs, we offer numerous options to every client.

Urinals Repair

Sometimes, the urinals don't have to be replaced but simply need to be repaired. ***If the urinals are making strange noises, are using more water, or possess a persistent odor, it could indicate a repair is required.*** Contact our innovative plumbing services to fix any acute problem. With clean and efficient urinals, businesses will send the right message to everyone that attention to detail is important. Fully functioning restrooms are a basic requirement of any home or office.

Urinals for Residential Locations

Some people might be surprised to learn that urinals have become more common in homes. Urinals are becoming more common for several reasons.

- Elderly people may have health issues that are easier to deal with using a urinal than a traditional toilet. For independence issues, many seniors rely on urinals as a **quality of life enhancer**.
- Many garages actually have urinals in garages or workshops for ease of access in the middle of a home improvement project.
- Some men simply prefer the urinal that attaches to the wall over a traditional toilet.
- Urinals also **take up less space** than traditional toilets.
- Urinals **use less water to help save on utility bills** and are more eco-friendly

Any residence that is looking to install a urinal should contact Beehive Plumbing. Experienced professionals will be able to find a urinal to meet every need.
